CULTURE:

The Etruscans: Tuscia is the most representative area for the etruscan civilization, land that conquered artists and writers. Several are the available daily trips to enjoy the suggestive landscapes of the ancient town of Vulci, the tumulus of the Banditaccia Necropolis in Cerveteri, the architecture of the stone Necropolis, enclosed by greenery, the mystery of hidden etruscan rocky streets, the several findings on display in the Archeological Museums.

The Middle Ages: Ancient Villages, located on the top of rocky tuff, features the magic of a past era and attract for the beauty of the small squares surrounded by artisans small stores, and for the fascinating medieval churches.

TARQUINIA

Charming village of the Tuscia area, famous worldwide for its incredible etruscan proofs, Tarquinia belongs since 2004 to the UNESCO heritage thanks to its Necropolis. In the heart of the historical centre, the Vitelleschi Palace, building of the Renaissance, location of the National Archeological Museum. Don't miss the chance to visit the medieval historical centre, surrounded by an ancient wall that encloses historical buildings and medieval towers.

Tuscania: The territory is developed on seven hills, like Rome, until the most extreme point where the Saint Peter Church is located, beautiful example of Lombard-Romanesque and the Santa Maria Maggiore Church. The historical centre, rebuilt after a strong earthquake, has been partly changed comparing to its original aspect, but anyway it conserves several proofs like the ancient perimetral wall.

Viterbo:

County seat, is proud to have an historic town which is a beautiful example of medieval architecture: well refined palaces, beautiful piperino fountains, churches and cloisters. Whorthy of visit: the Town Hall, Podestà Palace, Farnese Palace, the San Lorenzo Duomo and the namesake square, to the Popes Loggia and Palace.

Civita di Bagnoregio: Known as “The dying city” this place will totally amaze you. Civita di Bagnoregio , lovely village located on the top of decaying rocky hill is so often used as movie set. This place looks like an island with a dramatic beauty, completely surrounded by a suggestive landscape made of ravines, crests made of clay shaped by the weather conditions and by the time.

Sutri: set on a tuff mountain looking like a whole thing with the rock, since the etruscan age Sutri has always been important for its strategical location. Don't miss the Archaeologic Park, where you can visit the etruscan Necropolis, the Mitreo, the Amphitheater symbol of the city and the Savorelli Villa.

Calcata: village located in the Treja valley, where simple houses built up with typical rocks or digged directly into the tuff, mark the limits of the streets, where you can find small artisan shops. The surrounding landscape is really suggestive and you can also glimpse ruins of old medieval buildings.

The Unusual: The magic and the odd are hidden in the nature of the Monsters Park in Bomarzo and the Tarots Garden in Capalbio.

The Tarot Garden: created by the artist Niki De Saint Phalle, realized in the last period of her artistic career, putting together different materials to create female characters where you can walk in and live, using strong and bright colors, with shapes that reminds of the main figures of the tarots. Perfect fusion between art, architecture and design, the Park represents the spiritual dream of the artist, and the entrance itself, reveals the difference between magic and reality.

Rome, a museum under the sky: this is how you feel Rome, a chaotic overview incredibly rich of artworks, proof of centuries of history, heart of the Roman Empire. Impossible to discover the city in a short time because it offers thousands of aspects that you can choose depending on your priorities, don't forget the unexpected of its playful side, that you can discover through the liveliness of the locals, through the aromas of the trattorias, the precious relax moments you can spend in the different cafès.
